13. (U) Bird's Bank of America Check card Statement

Details:

On 1/16/2014, Newark sent a lead to the Guadalajara Regional Office (GRO) to conduct a logical investigation at Fishop in Zapopan, Jalisco, Mexico where missing person David Bird's Bank of America Check card was apparently used on 1/16/2014 at approximately 7:20 p.m.

On 1/21/2014 at approximately 1:00 p.m., Guadalajara ALAT [REDACTED] [REDACTED] went to Fishop (located at Santa Margarita #4436, Col. Santa Margarita, Zapopan, Jalisco, Mexico, phone number +52-33-1371-3801) with [REDACTED] of the Anti-Kidnapping unit in the state of Jalisco. Accompanying [REDACTED] were two other members from his team: [REDACTED] and [REDACTED] [REDACTED].

b6  
b7C

ALAT [REDACTED] first spoke to [REDACTED] (hereinafter [REDACTED]), who stated that since 1/3/2014, they had not allowed customers to use credit cards at the store. [REDACTED] allowed investigators to look at the store's revenue receipts for the month of December 2013 thru January 2013. According to the receipts, the store's RFC number is BG0111014374.

b6  
b7C

On 12/21/2013, the store received 1,501.90 Mexican Pesos in cash (listed as "Efectivo" - approximately \$115.00 U.S. Dollars) and 469.10 Mexican Pesos in Credit Card Transactions.

According to their records, on 1/15/2014, Fishop brought in \$4,177.80 Mexican Pesos in cash and there were no credit card transactions that day.

On 1/16/2014, the store brought in 4,694.30 in cash and there were no credit card transactions for the day. The store apparently reconciled

their income at 4:14 p.m. (see attached picture labeled "Store receipts for 16JAN2014"): According to [REDACTED] the charge on Bird's credit card was placed at approximately 7:20 p.m. local time on 1/16/2014.

b6  
b7C

At approximately 1:27 p.m., ALAT [REDACTED] received a picture (via e-mail) of Bird's Bank of America Check Card (see attached) that indicates a charge was placed in the amount of \$22.92 on 1/16/2014.

b6  
b7C

[REDACTED] also indicated that the security camera (see attached picture) located on the wall opposite the register has not been operational for approximately two or three months. [REDACTED] was shown pictures of David Bird (from the flyer) and she did not recognize him.

b6  
b7C

After speaking with [REDACTED] investigators spoke to [REDACTED] [REDACTED] (hereinafter [REDACTED] who is [REDACTED] of the store. [REDACTED] stated that he did not recognize the charges made on Bird's credit card on 1/16/2014. He also noted that the store's hours are from 8:00 a.m. to 4:00 p.m. (Monday thru Friday) and 9:00 a.m. to 5:00 p.m. (Saturday and Sunday). [REDACTED] said he has a key to the restaurant but [REDACTED] does not because he is not that involved with the business.

b6  
b7C

[REDACTED] stated that [REDACTED] works [REDACTED] [REDACTED] works at the store as [REDACTED] and [REDACTED] [REDACTED] for distribution to other restaurants in the area. [REDACTED] claimed that in the past he has not received proceeds from credit cards that he did not recognize as legitimate purchases in his store.

b6  
b7C

Prior to departing Fishop at approximately 1:30 p.m., ALAT [REDACTED] left two flyers (with Bird's picture) at the store and he left his business card with [REDACTED] in the event he happens to see Bird in the area.

b6  
b7C

Subsequent to interviewing [REDACTED] and [REDACTED] said he would inquire with Banorte (who appears to process the credit card transaction at the store) to see if he could find out more information

Would you mind checking with BOA to see if we can determine if a PIN was used or not? It will likely determine the way in which we approach handling this from here. If we know there is no paper receipt, then it seems like the next logical step would be to see if there are cameras in the grocery store. At that point, I might be able to have locals in Tepic ask the manager how long they keep the images for. With a lot of these video cameras, they record over themselves every 24-48 hours.

Typically, if a pin # is used then the card is being used as a debit card, to which no signature is needed.

I assume that whoever it's using the card doesn't have the pin #, so the card would be used like a regular credit card, to which he/she would have to sign.

In this case, I think there might be a receipt with signature it if the cc machine has one if those electronic signature pads, it might be on there. But as you know the cc was used allegedly at fishop and we/you could not locate any records of any transaction....so I would bet no pin was used.

Since this is a check card, does the individual need to sign a receipt to make purchases or does the user just enter his/her PIN #? The reason I ask is because if all that is needed is a PIN #, then there won't be any type of paper trail.

I hate to ask for more assistance, but the Bird credit card was used again last night 7 times. Now I realize that this is most likely a fraud and that David Bird is not in Mexico, but I would be remiss if we did not try to track down a lead. Also, as of last night, the credit card was canceled.

Attached is the list, to which all of the all transaction the "card" was swiped, starting with:

Tepic Tepic \$5.96 5:30pm EST (Theater)

I'm already on it. My guy yesterday said he was going to talk to the bank and find out what their transaction history was at that store over the last 30 days or so. I'm curious if they had other transactions this month that they didn't tell us about. Things aren't making sense...the transaction occurred at 7:20 pm but the store closes at 4:00...etc.

It will probably take a while but

I have a question...what, if any, is the chance of getting a subpoena for all of the transaction on any machine that Fishop has through that bank?

My prosecutors officer say that there is nothing that can be done from NJ, so I figured I would ask if there would be anything that can be done by your office down there?

Ay direction you can point me in would be a great help!

Photo 1538 shows the store's income for the day as far as cash (efectivo) and credit cards (tarjeta). They brought in 4,694 mx pesos in cash but 0.00 in credit card transactions at closing at 4:14 pm on jan 16. The credit card transaction apparently occurred about 3 hours after this receipt was printed. The store closes at 4pm on weekdays. I'll get you a report soon but in short, the store has no record of the credit card transaction and the surveillance camera in the other picture is non-operational.

Sure, I'll see what I can do. FYI, Tepic is another state that borders Jalisco (where I am located). So, depending on the locations where the card was used, it could take me anywhere from 2-4 hours to get there.

[REDACTED]

b7E

[REDACTED] Can you get me addresses for the locations where the card was used? Soriana is one of the most popular grocery stores in Mexico so I don't think we will be in a position to narrow it down without BOAs help.

I hate to ask for more assistance, but the Bird credit card was used again last night 7 times. Now I realize that this is most likely a fraud and that David Bird is not in Mexico, but I would be remiss if we did not try to track down a lead. Also, as of last night, the credit card was canceled.

Attached is the list, to which all of the all transaction the "card" was swiped, starting with:

Tepic Tepic	\$5.96	5:30pm EST	(Theater)
Gas	\$74.56	7:46pm EST	
Gas	\$71.57	7:46 est	
Soriana \$77.86	10:39pm EST	(Grocery Store)	
	\$102.74	10:47pm EST	
	\$144.49	10:50pm EST	

3/11/2014

\$186.24 10:50pm EST

Anything you can do to help would be greatly appreciated. We can talk more about this Monday, but I wanted to get you the information today.

I'm already on it. My guy yesterday said he was going to talk to the bank and find out what their transaction history was at that store over the last 30 days or so. I'm curious if they had other transactions this month that they didn't tell us about. Things aren't making sense...the transaction occurred at 7:20 pm but the store closes at 4:00...etc.

It will probably take a while but

Thank you for all your help!

I have a question....what, if any, is the chance of getting a subpoena for all of the transaction on any machine that Fishop has through that bank?

My prosecutors officer say that there is nothing that can be done from NJ, so I figured I would ask if there would be anything that can be done by your office down there?

Ay direction you can point me in would be a great help!

Thanks again!

Photo 1538 shows the store's income for the day as far as cash (efectivo) and credit cards (tarjeta). They brought in 4,694 mx pesos in cash but 0.00 in credit card transactions at closing at 4:14 pm on jan 16. The credit card transaction apparently occurred about 3 hours after this receipt was printed. The store closes at 4pm on weekdays. I'll get you a report soon but in short, the store has no record of the credit card transaction and the surveillance camera in the other picture is non-operational.

I have a question....what, if any, is the chance of getting a subpoena for all of the transaction on any machine that Fishop has through that bank?

My prosecutors officer say that there is nothing that can be done from NJ, so I figured I would ask if there would be anything that can be done by your office down there?

Ay direction you can point me in would be a great help!

Thanks again!

Photo 1538 shows the store's income for the day as far as cash (efectivo) and credit cards (tarjeta). They brought in 4,694 mx pesos in cash but 0.00 in credit card transactions at closing at 4:14 pm on jan 16. The credit card transaction apparently occurred about 3 hours after this receipt was printed. The store closes at 4pm on weekdays. I'll get you a report soon but in short, the store has no record of the credit card transaction and the surveillance camera in the other picture is non-operational.

3. Per [redacted] at Arc Point Lab .. NMS in Pennsylvania will do the testing .. it takes 3-4 weeks. (Cost: \$2500 for stool, \$1700 buccal swab, shipping \$50, return \$47 + expertwitness fees).

A quick question...we have been doing a pretty exhaustive ground search, both on land and in the Passaic River by the missing persons residence. When the dogs were out the other day they made a hit and then yesterday we found what is believed to be human feces. As such, the NJ State Police Lab does not have a protocol to examine the feces (for DNA, blood types, medications, etc...). Does the FBI lab or do you happen to know of any lab that might examine this specimen?

Any help would be greatly appreciated!

The Address and the phone number are correct for Fishop, which is a company that sells fish and seafood wholesale to restaurants throughout Mexico. Fishop is also associated with a small restaurant located in Colonia (neighborhood) Jardín Real, Zapopan, Jalisco, Mexico. Their hours are from Monday through Friday from 8:00 am - 4:00 pm, Saturdays and Sundays from 9:00 a.m. through 5:00 p.m.

The Translation for the photo labeled as "Fishop 2" is as follows: "Dear Clients, we regret to inform you that at this time that our credit card terminal is not working. Sorry for the inconvenience."

I informed my LEO contact from the anti kidnapping unit here and I explained to him that this may be a big news story in the US. I requested he check out this place as

The Address and the phone number are correct for Fishop, which is a company that sells fish and seafood wholesale to restaurants throughout Mexico. Fishop is also associated with a small restaurant located in Colonia (neighborhood) Jardín Real, Zapopan, Jalisco, Mexico. Their hours are from Monday through Friday from 8:00 am - 4:00 pm, Saturdays and Sundays from 9:00 a.m. through 5:00 p.m.

The Translation for the photo labeled as "Fishop 2" is as follows: "Dear Clients, we regret to inform you that at this time that our credit card terminal is not working. Sorry for the inconvenience."

I informed my LEO contact from the anti kidnapping unit here and I explained to him that this may be a big news story in the US. I requested he check out this place as soon as possible. I'm hoping that will be tomorrow. If anything changes or if this no longer is a high priority for us, please let me know ASAP so I can tell him to stand down.

Photo 1538 shows the store's income for the day as far as cash (efectivo) and credit cards (tarjeta). They brought in 4,694 mx pesos in cash but 0.00 in credit card transactions at closing at 4:14 pm on jan 16. The credit card transaction apparently occurred about 3 hours after this receipt was printed. The store closes at 4pm on weekdays. I'll get you a report soon but in short, the store has no record of the credit card transaction and the surveillance camera in the other picture is non-operational.

Usually on credit card statements, it will say the amount in local currency, and then the company will tell you the amount in US Dollars. I was wondering iif you can find out what the original amounts (in pesos) were charged to the card. The exchange rate is about 13 pesos per dollar.

My guy said he is coming to the consulate in an hour...hopefully we can knock this out soon. Can you find out what the amounts were in local currency (mexican pesos) for the charges below? It might make it easier to find the receipts.

\$76.38 (This one was denied, based on Bank of America flagging out of country purchase.)

There was not a sign pad on the machine, so there should be a signed hard copy.

Thanks again!

No worries. My thought is that his card got cloned somehow...it happens so much here that at restaurants they bring the credit card terminals to your table...the waiters don't take it out of your sight. But we still need to check and verify that. I texted my guy again tonight and asked if anyone from his team can meet me there. Still waiting on an answer. If I don't get one tonight, I'll reach out for others. I really want to get this taken care of for you guys tomorrow.

The Address and the phone number are correct for Fishop, which is a company that sells fish and seafood wholesale to restaurants throughout Mexico. Fishop is also associated with a small restaurant located in Colonia (neighborhood) Jardín Real, Zapopan, Jalisco, Mexico. Their hours are from Monday through Friday from 8:00 am - 4:00 pm, Saturdays and Sundays from 9:00 a.m. through 5:00 p.m.

The Translation for the photo labeled as "Fishop 2" is as follows: "Dear Clients, we regret to inform you that at this time that our credit card terminal is not working. Sorry for the inconvenience."

I informed my LEO contact from the anti kidnapping unit here and I explained to him that this may be a big news story in the US. I requested he check out this place as soon as possible. I'm hoping that will be tomorrow. If anything changes or if this no longer is a high priority for us, please let me know ASAP so I can tell him to stand down.

I don't think my guy will be able to go out today. I will ask him to go to the location with me on Monday. Unfortunately, I have to get the Mex Gov to do this for us, I can't do it unilaterally. If I could, I would have gotten you the results already. I wish things worked faster here but they don't go as quickly as we would like. Please let me know if you get any other updates.

A quick question...we have been doing a pretty exhaustive ground search, both on land and in the Passaic River by the missing persons residence. When the dogs were out the other day they made a hit and then yesterday we found what is believed to be human feces. As such, the NJ State Police Lab does not have a protocol to examine the feces (for DNA, blood types, medications, etc...). Does the FBI lab or do you happen to know of any lab that might examine this specimen?

Any help would be greatly appreciated!

A quick question...we have been doing a pretty exhaustive ground search, both on land and in the Passaic River by the missing persons residence. When the dogs were out the other day they made a hit and then yesterday we found what is believed to be human feces. As such, the NJ State Police Lab does not have a protocol to examine the feces (for DNA, blood types, medications, etc...). Does the FBI lab or do you happen to know of any lab that might examine this specimen?

Any help would be greatly appreciated!

The Address and the phone number are correct for Fishop, which is a company that sells fish and seafood wholesale to restaurants throughout Mexico. Fishop is also associated with a small restaurant located in Colonia (neighborhood) Jardín Real, Zapopan, Jalisco, Mexico. Their hours are from Monday through Friday from 8:00 am - 4:00 pm, Saturdays and Sundays from 9:00 a.m. through 5:00 p.m.

The Translation for the photo labeled as "Fishop 2" is as follows: "Dear Clients, we regret to inform you that at this time that our credit card terminal is not working. Sorry for the inconvenience."

I informed my LEO contact from the anti kidnapping unit here and I explained to him that this may be a big news story in the US. I requested he check out this place as soon as possible. I'm hoping that will be tomorrow. If anything changes or if this no longer is a high priority for us, please let me know ASAP so I can tell him to stand down.

Boss,

As you know, the victim, who departed his home at 4:30 pm on Saturday, had his credit card swiped in a town called Zapopan, in the state of Jalisco in Mexico. It was an actual credit card swipe, as opposed to a just the use of the CC number. The Legat sub-office in Guadalajara is handling our lead to determine if the card was actually utilized by the victim, and if not, to try and identify the individual who did utilize the card. The A/LAT was going to have local Mexican authorities run down the lead, as he is deployed elsewhere in Mexico until Monday. The A/LAT pointed out that there is a high likelihood that the victim's card was cloned, and that the usage down there has nothing to do with the victim's disappearance.

It is apparently fairly common in that area that people will have associates or relatives in the States that are employed as clerks in various businesses. In this scenario, the victim may have used his card to pay for fuel, for example, and his credit card date was stolen, and sent down to Mexico to be loaded onto the magnetic strip of a credit card blank. We do not yet have the results of the Mexican investigation.

Sir:

A 55 yo male reporter for the WSJ, named David Bird, has been missing since Saturday afternoon. He left his home at approximately 4:30 pm to go for a walk and has not been seen/heard from since. We were not aware of the matter until today, when a media inquiry was made. GMRA reached out to the PD this afternoon. They have declined any assistance, with the exception of a lead that they have in Mexico.

Although there have been no signs of foul play, the victim, who is married and has 2 teenage children, has no indicators of an unstable family life which might have prompted him to leave his family. At any rate, on Sunday night at 7:00 pm local time (8 pm EST), only 14 hrs after he left home, one of his credit cards was physically swiped in the city of Zapopan, Jalisco state, in Mexico. I reached out to the Legat sub-office there in Guadalajara. They will utilize local officers tomorrow to conduct an investigation at the store where the card was swiped, in the hope of determining whether the victim himself, or someone else utilized the card. S/A [redacted] is working with Long Hill PD.

\$22.92

\$76.38

\$76.38 (This one was denied, based on Bank of America flagging out of country purchase.)

There was not a sign pad on the machine, so there should be a signed hard copy.

Thanks again!

Thanks,

Sources Close to the family say David Bird's credit card was used in Mexico last night.

Specifically in Jalisco Mexico.

The family wonders if his area of reporting, OPEC, may be part of the reason he disappeared. They wonder if perhaps he was working on a story that was embarrassing to OPEC.

The family does not believe that David simply wandered away from the family.

With the use of the credit card in Mexico it's possible the FBI may now be getting involved.
